Begonias

Begonia semperflorens-hybrids, wax begonia

Eureka Series

The Eureka Series boast big, colorful blooms and bronze foliage. Eureka is the best field performing, compact Begonia on the market. Very strong branching and tolerant to adverse conditions makes this the best choice for landscaping. Vigorous with a bushy habit the bronze foliage allows a greater exposure to direct sunlight. Grows in Sun to Partial Shade 9-12" tall and 7-9" wide.

Bronze Leaf Rose

Bronze Leaf Red

Bronze Leaf White

Top Hat Series

Begonia Hybrid

The new Top Hat series are an interspecific begonia that have excellent garden performance with lots of vigor that make it an exceptional green leaf begonia and has the biggest blooms in its class. They have a 20% larger flower than the BIG Series. Can take full sun to partial shade in South Florida's fall and winter climates. Grows 16-20" tall and up to 20-24" wide.

Pink

Scarlett

White

"BIG" Series

Begonia x benariensis

Large 2-3" flowers are held above the leaves for maximum show and can reach a height of 20" and 15" wide. The bronze foliage adds vibrancy and contrast to the striking red or rose colored flowers. Characterized by its upright arching habit, 'BIG' begonias make a stately presentation in park settings and large landscape plantings from full sun to shade.

Dragon Wing Begonias

Begonia X hybrida

Dragon Wing™ delivers excellent garden performance across a wide range of conditions. With a unique beautiful arching, pendulous habit, this spectacular plant adapts well to hanging baskets, large containers and in-ground plantings. Outstanding heat tolerance provides lush, vigorous growth. Dragon Wing offers a dramatically different look from standard begonias. Dragon Wing grows 12 to 15" tall and spreads up to 18".

Begonia Odorata 'Alba'

This begonia is noted for its ability to handle strong sun, while doing just as well in the shade. It features white flowers with a delicate fragrance and glossy green foliage. Grow up to 3' tall and 3' wide.

Bush Daisy

(Euryops)

Euryops pectinatus

Euryops, Yellow Bush Daisy, or African Yellow Daisy is a marvelous addition to any garden that has a well-drained, full sun situation. This is a plant that provides sunny, yellow daisy-like flower color against a mat of appealing finely cut green foliage all season long. It is a tough plant that survives all but the most extreme warm weather conditions including moderate drought. Grows 14-18" tall. Not cold hardy.

Cyclamen

Cyclamen persicum
"Dreamscapes"

Dreamscape cyclamen has great landscape performance and is the best of any cyclamen for outdoor use. Landscapers can plant cyclamen in the ground and count on better, longer performance. Grows in full sun to partial shade. Grows 6-9" in height and width 9-13" tall. Available Jan-Feb.

Cleome Sparkler Series

Cleome hasslerana 'Sparkler'

As a hybrid, this Cleome series is genetically more dwarf, resulting in a plant habit about 1/2 to 2/3 the size of traditional garden cleome. The bushy, well-branched plants grow very uniform in the garden, thus making it a great focal point in your landscape planting. Height: 42-48" with 12" spread. Grow in full sun to partial shade.

Dianthus Jolt™ Interspecific

Dianthus barbatus interspecific

Dianthus Jolt is a new interspecific that can withstand hot summer conditions with few disease issues. Large flower heads bloom over strong dark green foliage on well-branched plants. Height: 16-20", 12-14" spread.

Duranta "Gold Mound" - Duranta

An award-winning Landscape Elite™ upright shrub with bright yellow and green foliage that is a perfect addition to any landscape or containers. Variegated yellow and green foliage. Light blue tubular flowers will appear from July to October. Heat and sun loving. Grows 10-24" tall.

Dusty Miller

Silverdust/New Look

Senecio cineraria

Finely cut, silvery white, velvety foliage on uniform plants. The striking leaves are superb for adding contrast and texture to beds and borders. Grows 6-10" tall and 10" wide. Requires full sun. Do not overwater.

Ipomoea

Ipomoea batatas

Bright foliage provides a light color for this trailing vine. An excellent foliage contrast in containers, baskets, window boxes or garden beds. Produces small white flowers in warm tropical conditions, but is mainly sold as a foliage plant for accent. Grows 10-12" tall and 24-36" wide. Full Sun.

Marguerite

SolarPower Series

Densely branched SolarPower holds its shape and color in landscapes and mixed combos all summer long. The tidy habit of this series makes it more manageable and friendly to companion plants and the color will not fade in the heat of summer. Height: 10-12" - Spread: 24-36"

RootShield® PLUS⁺

HEALTHIER PLANTS, START TO FINISH

For healthier roots RootShield® PLUS⁺ contains two active ingredients (Trichoderma harzianum strain T-22, and Trichoderma Virens strain G-41), and provides 3 months of preventative control of major root diseases.

- One application provides 10-12 weeks of protection from root damaging fungi
- Costs less than 2¢ per 6-inch pot
- Prevents all major root diseases – including **Phytophthora**
- Promotes a healthier root system, increasing root mass potential
- Reduces or eliminates chemical fungicide applications
- 0-hour restricted entry interval (REI)* / 0-hour pre-harvest interval (PHI)

Available in granules or wettable powder, use RootShield PLUS⁺ on greenhouse and nursery ornamentals, vegetables, herbs, and fruits.

*WP formulation has 4-hour REI only when used as a dip or dust.

Geraniums

Pelargonium x hortorum

Geraniums boast spectacular displays of 4 to 5" diameter flower clusters composed of small florets arranged in a half sphere. Geraniums benefit from full sun and moderate to rich, well-drained, moist soil. Incorporate a slow-release fertilizer into the soil at planting time. In flower beds, space them 12-14 inches apart and avoid overwatering. Geraniums are used as a colorful groundcover on slopes and lawns and they are excellent in containers of all types from small pots to large tubs to window boxes. Grows 12-14" tall and 12-14" wide.

Calliope Series

Pelargonium interspecific

Calliope represents a new class of geraniums after 14 years of breeding. This breakthrough plant is a cross between a zonal geranium and an ivy geranium, representing the best features of both.

The amazing large flowers, like a zonal geranium, are semi-double flowers. The glossy green leaves & the semi-trailing habit are like that of an ivy geranium. It blooms all fall & winter long even in low light conditions. High heat & drought resistant. Grows 12-16" tall and 14-16" wide.

Big Ezee Series

Pelargonium interspecific

Big EZZE features a compact, rounded habit, along with robustly heavy branches. These tough branches support its large flowers and the overall habit ensures ease of shipping. Big EZZE has

been thoroughly tested by growers, who have found its zonal/interspecific breeding to be an effective combination, resulting in easy-to-grow properties. This is a vigorous series that is much larger than your standard zonal geranium growing 14-24" in height and 16" in width. Requires at least 6 hours of sun. Available in 6" pots only.

Marigolds Durango Series

Tagetes patula

The highest quality anemone-type marigolds. Durangos deliver more blooms, stronger stems, and better uniformity than other marigolds of this type. Extra large, 2-2 1/2" solid and bicolor blooms are yellow, gold, orange and mahogany-red. The 10-12" plants are drought and disease tolerant. Plant in full sun.

Marigolds "Hot Pak Series" (French)

Tagetes patula

A dwarf French crested-type marigold. An early bloomer with very large flowers, 2-2 1/2", on compact plants. An excellent performer in hot weather and ideal for late season plantings. Grows 6-8" tall and 10-12" wide. Full Sun.

Yellow

Inca II (African)

Tagetes erecta

Inca II Marigolds are sure to become the star attraction of your flower beds! Enormous double flowers in vibrant shades of orange and yellow. Blooms appear early and continue all summer long until frost. Sturdy plants grow 12-18 in. tall just right for massing in sunny beds and borders.

Sunpatiens

Impatiens x hybrida hort

Sunpatiens are a revolutionary new hybrid impatiens that thrives in sun and takes the heat. Sunpatiens are the result of an intense breeding program that has spanned many years and has been tested the world over. Strong weather tolerant plants that hold up well to wind and rain while thicker petals and foliage are less prone to disease. Grows 14-36" tall and wide in the garden. Make sure you have good irrigation. Sunpatiens are Downey Mildew resistant.

Pentas

Pentas lanceolata

“Lucky Star Pentas”

This is a new dwarf series from Pan American seed. This new series has a well-branched, compact habit and also has eliminated the cyclic blooming. Lucky Star is bred for the fastest follow-up blooming of any pentas on the market. Follow-up blooms don't eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal effort. These naturally well branched pentas form mounds of flowers in the garden and blankets containers for highest consumer demand. Height: 12-15", 10-14" spread.

Petunias

Petunia x hybrida

Limbo Series

This fast-growing spreading petunia, blooms freely all season in landscapes and containers without cutting back, and tolerate both heat and cooler conditions very well. Flower-filled plants grow a little more mounded than original Wave, with a more controlled spread. Avoid wet foliage going into night. Keep well fed for best performance. Grows 6-12" tall and 30-39" wide. Needs full sun. Available after Dec 1st.

Pretty Grand Series

Petunia x hybrida

This new, naturally compact grandiflora petunia series was bred for great field performance. Its tightly branched habit and short internodes will shine at retail with less stretch and extended shelf life. Additionally, these tidy plants are vigorous in the landscape and require less maintenance for gardeners. Requires full sun. Grows 12-14" in height and 14-16" in width. Do not over water. Available after Oct. 15th.

Salvia

"Sally Fun Series"

Salvia farinacea

Salvia Sally Fun makes a striking expression when planted in masses in your landscape. Sally Fun' really is a whole new generation for Salvia, with richer blooms, better branching, more compact plants, superb weather resistance, and an extra-long season of bloom. What a low maintenance plant! This plant puts up with bad weather from heat and humidity to drought and unseasonable cold. Grows 12-24" tall and 12-16" wide. Full sun to partial shade.

Salvia Mysty

Salvia longispicata X farinacea

This compact salvia is about 25 to 35% less vigorous than Mystic Spires, making it a better variety for mixes. Covered with true blue flowers all season, the dark green-leaved plants are naturally more compact, well-branched and very free-flowering. Heat-hardy plants are great for late Spring/Summer programs and attracts butterflies. Grows 12-18" tall and 12-18" wide.

Salvia "Reddy Series"

Salvia splendens

Reddy produces a large number of densely placed bright colored flowers above dark green foliage. It is day length neutral and performs splendidly in the garden. Garden height: 8-10 in. & width 8-10 in. Can take sun in Florida's fall and winter but grows best in partial shade. Protect from frost.

Lavender

Pink

Red

Purple

White

"Purple Heart"

Secreasea Pallida

'Purple Heart' is a trailing, tender perennial with purple stems and violet-purple leaves that produces pink flowers in summer. This plant is mainly grown for its foliage (leaves can reach 7 inches in length); best color is achieved in bright sunlight and a dry, cramped root zone. It is excellent as a groundcover or in containers or hanging baskets. It grows 8-12 inches tall and 16 inches wide and full sun.

Pansy "Matrix Series"

Viola x wittrockiana

Pansies are the cold weather plant of choice for late fall, winter and early spring color. They are exceptionally hardy and will thrive in the cool southern winter months. These pansies have large, thick-petaled, 3.5-in. flowers. Matrix makes high-impact landscapes and Frost tolerant and low maintenance. Grow up to 8" in height and 8 - 10" in width. Requires sun to partial shade. Available 12-1-17.

Violas "Penny Series"

Viola x hybrid

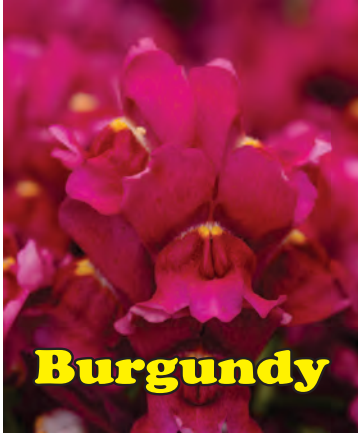

Penny violas are heat tolerant and fills pots easily, even under heat stress where standard violas suffer. This alternative to pansies comes in a number of eye-catching and unique colors that are extremely versatile. Grows 4-6" tall and 6-8" wide. Full sun to partial shade. Available starting 11-1-17.

Snapdragons Snapshot Series

Antirrhinum Majus-dwarf F1

Snapshots are compact plants that are topped by closely spaced full flower spikes for high-impact color shows with superb garden performance. Attracts butterflies. Grows 6-10" tall and 10-12" wide & requires full sun.

Snapdragons

Snaplastic Series

The next generation of snapdragons that has reduced sensitivity to day length. A strong root system makes Snaplastic's more resilient to heat and inclement weather. Its strong stems support lateral branching resulting less damage from handling. Requires full sun. Grows 14-16" tall and 14-16" wide. **Not available until Dec. 2nd.**

Sonnet Series

Antirrhinum majus nanum F1

Sonnet Snapdragons are a taller variety that makes beautiful backdrops for shorter plants. Snapdragons do best when the weather is cool but will stop blooming when the weather gets hot. When it cools off again they resume blooming. These lightly scented flowers will attract butterflies. Requires full sun. Grows 18-24" tall and 12" wide. **Not available until Dec. 2nd.**

Vinca "Valiant Series"

Catharanthus roseus

Superior vigor allows Valiant vinca in landscapes to better survive environmental stresses such as sun, heat, drought, salt and cool/damp conditions. Low maintenance with good landscape longevity. Valiant is a very well-branched, heavy-blooming plant that grows 14 to 20" high and 10-12" wide. Grows in full sun. **Vinca will need to be mulched to prevent splashing water that can spread disease such as Aerial Phytophthora.** Do not over water and protect from temperatures under 45F.
