# Begonias

*Begonia semperflorens-hybrids, wax begonia*

## Eureka Series

The Eureka Series boast big, colorful blooms and bronze foliage. Eureka is the best field performing, compact Begonia on the market. Very strong branching and tolerant to adverse conditions makes this the best choice for landscaping. Vigorous with a bushy habit the bronze foliage allows a greater exposure to direct sunlight. Grows in Sun to Partial Shade 9-12" tall and 7-9" wide.

**Bronze Leaf Rose**

**Bronze Leaf Red**

**Bronze Leaf White**

## Top Hat Series

*Begonia Hybrid*

The new Top Hat series are an interspecific begonia that have excellent garden performance with lots of vigor that make it an exceptional green leaf begonia and has the biggest blooms in it class. They have a 20% larger flower than the BIG Series. Can take full sun to partial shade in South Florida's fall and winter climates. Grows 16-20" tall and up to 20-24" wide.

**Pink**

**Scarlett**

**White**

# "BIG" Series

*Begonia x benariensis*

Large 2-3" flowers are held above the leaves for maximum show and can reach a height of 20" and 15" wide. The bronze foliage adds vibrancy and contrast to the striking red or rose colored flowers. Characterized by its upright arching habit, 'BIG' begonias make a stately presentation in park settings and large landscape plantings from full sun to shade.

**Bronze Leaf Rose**

**Bronze Leaf Red**

**Green Leaf White**

## Dragon Wing Begonias

*Begonia X hybrida*

Dragon Wing™ delivers excellent garden performance across a wide range of conditions. With a unique beautiful arching, pendulous habit, this spectacular plant adapts well to hanging baskets, large containers and in-ground plantings. Outstanding heat tolerance provides lush, vigorous growth. Dragon Wing offers a dramatically different look from standard begonias. Dragon Wing grows 12 to 15" tall and spreads up to 18".

**Pink**

**Red**

## Begonia Odorata 'Alba'

This begonia is noted for its ability to handle strong sun, while doing just as well in the shade. It features white flowers with a delicate fragrance and glossy green foliage. Grow up to 3' tall and 3' wide.

**White**

## Bush Daisy

(*Euryops*)

*Euryops pectinatus*

Euryops, Yellow Bush Daisy, or African Yellow Daisy is a marvelous addition to any garden that has a well-drained, full sun situation. This is a plant that provides sunny, yellow daisy-like flower color against a mat of appealing finely cut green foliage all season long. It is a tough plant that survives all but the most extreme warm weather conditions including moderate drought. Grows 14-18" tall. Not cold hardy.

# Celosia Dragons Breath

*Celosia argentea plumosa*

The industry cannot get enough of the unique green-red foliage and blazing-red, long-lasting flowers of Dragon's Breath Red celosia. Dragon's Breath is great in containers, beds and large landscapes. Dragon's Breath exhibits even more red foliage and flowers under adverse garden conditions like heat, humidity and infrequent watering. Fantastic performer under hot and humid conditions that make a perfect choice for landscaping for bright red color with gorgeous flowering plumes. Minimal nitrogen needed during growing period, less fertilizer and irrigation needed. Grows up to 24" in height and 16" in width and requires full sun.

# Dianthus Jolt™ Interspecific

*Dianthus barbatus interspecific*

Dianthus Jolt is a new interspecific that can withstand hot summer conditions with few disease issues. Large flower heads bloom over strong dark green foliage on well-branched plants.

Height: 16-20", 12-14" spread.

**Cherry**

**Pink Magic**

**Pink**

# Duranta "Gold Mound"

An award-winning Landscape Elite™ upright shrub with bright yellow and green foliage that is a perfect addition to any landscape or containers. Variegated yellow and green foliage. Light blue tubular flowers will appear from July to October. Heat and sun loving. Grows 10-24" tall.

## Dusty Miller Silverdust/New Look

*Senecio cineraria*

Finely cut, silvery white, velvety foliage on uniform plants. The striking leaves are superb for adding contrast and texture to beds and borders. Grows 6-10" tall and 10" wide. Requires full sun. Do not overwater.

## Ipomoea

*Ipomoea batatas*

Bright foliage provides a light color for this trailing vine. An excellent foliage contrast in containers, baskets, window boxes or garden beds. Produces small white flowers in warm tropical conditions, but is mainly sold as a foliage plant for accent. Grows 10-12" tall and 24-36" wide. Full Sun.

Marguerite

## SolarPower Series

Densely branched SolarPower holds its shape and color in landscapes and mixed combos all summer long. The tidy habit of this series makes it more manageable and friendly to companion plants and the color will not fade in the heat of summer. Height: 10-12" – Spread: 24-36"

# RootShield® PLUS<sup>+</sup>

## HEALTHIER PLANTS, START TO FINISH

For healthier roots RootShield® PLUS<sup>+</sup> contains two active ingredients (Trichoderma harzianum strain T-22, and Trichoderma Virens strain G-41), and provides 3 months of preventative control of major root diseases.

- One application provides 10-12 weeks of protection from root damaging fungi
- Costs less than 2¢ per 6-inch pot
- Prevents all major root diseases – including **Phytophthora**
- Promotes a healthier root system, increasing root mass potential
- Reduces or eliminates chemical fungicide applications
- 0-hour restricted entry interval (REI)\*/ 0-hour pre-harvest interval (PHI)

Available in granules or wettable powder, use RootShield PLUS<sup>+</sup> on greenhouse and nursery ornamentals, vegetables, herbs, and fruits.

\*WP formulation has 4-hour REI only when used as a dip or dust.

# Geraniums

## Moonlight Series

*Pelargonium x hortorum*

**This dark foliage, compact and uniform series geraniums boast spectacular displays of 4 to 5" diameter flower clusters composed of small florets arranged in a half sphere.**

**Geraniums benefit from full sun and moderate to rich, well-drained, moist soil. Incorporate a slow-release fertilizer into the soil at planting time. In flower beds, space them 12-14 inches apart and avoid overwatering. Geraniums are used as a colorful groundcover on slopes and lawns and they are excellent in containers of all types from small pots to large tubs to window boxes. Grows 12-14" tall and 12-14" wide.**

# Patriot Series

*Pelargonium interspecific*

Patriot geraniums are an exceptional series of zonal geraniums that are self-branching, have mounded habits and large clusters of flowers. These early-flowering plants are also known for their good tolerance to hot, wet summertime like weather. Vigorous and easy to grow, zonal geraniums prefer full to partial sun and average to fertile soil that drains well. Overwatering can result in root or crown rot. Grows 12-18" in height and 15-24" in width.

# Marigolds Durango Series

*Tagetes patula*

The highest quality anemone-type marigolds. Durangos deliver more blooms, stronger stems, and better uniformity than other marigolds of this type. Extra large, 2-2 1/2" solid and bicolor blooms are yellow, gold, orange and mahogany-red. The 10-12" plants are drought and disease tolerant. Plant in full sun.

**Bee**

**Bolero**

**Flame**

**Red**

**Tangerine**

**Yellow**

## Marigolds "Hot Pak Series" (French)

*Tagetes patula*

A dwarf French crested-type marigold. An early bloomer with very large flowers, 2-2 1/2", on compact plants. An excellent performer in hot weather and ideal for late season plantings. Grows 6-8" tall and 10-12" wide. Full Sun.

**Deep Orange**

**Fire**

**Flame**

**Spry**

**Yellow**

**Yellow**

## Inca II (African)

*Tagetes erecta*

Inca II Marigolds are sure to become the star attraction of your flower beds! Enormous double flowers in vibrant shades of orange and yellow. Blooms appear early and continue all summer long until frost. Sturdy plants grow 12-18 in. tall just right for sunny beds and borders.

# Sunpatiens

*Impatiens x hybrida hort*

**Sunpatiens are a revolutionary new hybrid impatiens that thrives in sun and takes the heat. Sunpatiens are the result of an intense breeding program that has spanned many years and has been tested the world over. Strong weather tolerant plants that hold up well to wind and rain while thicker petals and foliage are less prone to disease. Grows 14-36" tall and wide in the garden. Make sure you have good irrigation. Sunpatiens are Downey Mildew resistant.**

# Pentas

*Pentas lanceolata*

## "Dwarf Pentas"

This new series has a well-branched, compact habit and also has eliminated the cyclic blooming. Follow-up blooms don't eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal effort. These naturally well branched pentas form mounds of flowers in the garden and blankets containers for highest consumer demand. Height: 12-15", 10-14" spread.

# Petunias

*Petunia x hybrida*

## Limbo Series

This fast-growing spreading petunia, blooms freely all season in landscapes and containers without cutting back, and tolerate both heat and cooler conditions very well. Flower-filled plants grow a little more mounded than original Wave, with a more controlled spread. Avoid wet foliage going into night. Keep well fed for best performance. Grows 6-12" tall and 30-39" wide. Needs full sun. Available after Dec 1st.

# Pretty Grand Series

*Petunia x hybrida*

This new, naturally compact grandiflora petunia series was bred for great field performance. Its tightly branched habit and short internodes will shine at retail with less stretch and extended shelf life. Additionally, these tidy plants are vigorous in the landscape and require less maintenance for gardeners. Requires full sun. Grows 12-14" in height and 14-16" in width. Do not over water. Available after Oct. 15th.

## "Purple Heart"

*Setcreasea Pallida*

'Purple Heart' is a trailing, tender perennial with purple stems and violet-purple leaves that produces pink flowers in summer. This plant is mainly grown for its foliage (leaves can reach 7 inches in length); best color is achieved in bright sunlight and a dry, cramped root zone. It is excellent as a groundcover or in containers or hanging baskets. It grows 8-12 inches tall and 16 inches wide.

## Sedum Angelina

*Sedum hybrid*

*Sedum rupestre* 'Angelina' is an evergreen perennial that adds some pizzazz to winter landscapes. This low growing plant performs well in sunny, well-drained spots in the landscape but will also tolerate some shade. In the summer, the foliage is a brilliant chartreuse but after a few cold snaps it takes on a coppery bronze tinge that brightens up winter landscapes.

# Salvia Mysty

*Salvia longispicata X farinacea*

**This compact salvia is about 25 to 35% less vigorous than Mystic Spires, making it a better variety for mixes. Covered with true blue flowers all season, the dark green-leaved plants are naturally more compact, well-branched and very free-flowering. Heat-hardy plants are great for late Spring/Summer programs and attracts butterflies. Grows 12-18" tall and 12-18" wide.**

# Salvia "Reddy Series"

*Salvia splendens*

**Reddy produces a large number of densely placed bright colored flowers above dark green foliage. It is day length neutral and performs splendidly in the garden. Garden height: 8-10 in. & width 8-10 in. Can take sun in Florida's fall and winter but grows best in partial shade. Protect from frost.**

# Pansy "Matrix Series"

*Viola x wittrockiana*

Pansies are the cold weather plant of choice for late fall, winter and early spring color. They are exceptionally hardy and will thrive in the cool southern winter months. These pansies have large, thick-petaled, 3.5-in. flowers. Matrix makes high-impact landscapes and Frost tolerant and low maintenance. Grow up to 8" in height and 8 - 10" in width. Requires sun to partial shade. Available 12-1-20.

# Violas "Penny Series"

*Viola x hybrid*

Penny violas are heat tolerant and fills pots easily, even under heat stress where standard violas suffer. This alternative to pansies comes in a number of eye-catching and unique colors that are extremely versatile. Grows 4-6" tall and 6-8" wide. Full sun to partial shade. Available starting 12-1-20.

# Snapdragons

## Snapntini Series

*Antirrhinum Majus-dwarf F1*

**Snapntini series are compact plants that are topped by closely spaced full flower spikes for high-impact color shows with superb garden performance. Attracts butterflies.**

**Grows 6-10" tall and 10-12" wide & requires full sun.**

## Snaptastic Series

*Antirrhinum Majus*

**The next generation of snapdragons that has reduced sensitivity to day length. A strong root system makes Snaptastic's more resilient to heat and inclement weather . Its strong stems support lateral branching resulting less damage from handling. Requires full sun. Grows 14-16" tall and 14-16" wide. Not available until Dec.**

# Vinca

## "Valiant Series"

*Catharanthus roseus*

Superior vigor allows Valiant vinca in landscapes to better survive environmental stresses such as sun, heat, drought, salt and cool/damp conditions.

Low maintenance with good landscape longevity.

Valiant is a very well-branched, heavy-blooming plant that grows 14 to 20" high and 10-12" wide.

Grows in full sun. Vinca will need to be mulched to prevent splashing water that can spread disease such as Aerial Phytophthora.
